“THE MEDICAL IMPLICATIONS OF THE NUCLEAR AGE”

FRIDAY, FEBRUARY 27, 2015

1:30 P.M. – Alampi Room

Marine Sciences Bldg., 71 Dudley Road, New Brunswick, NJ

[NOTE SPECIAL TIME AND LOCATION]

Refreshments served at 1:15 pm

Host: Prof. Alan Robock, robock@envsci.rutgers.edu, 848-932-5751

Website: Environmental Sciences Seminars <http://www.envsci.rutgers.edu/info/seminar/seminar.shtml>

Abstract

The medical dangers of the nuclear fuel chain begin at uranium mining and end with either a massive nuclear power plant meltdown, a nuclear war or the many diseases and mutations in animals, plants and humans that will arise from the inevitable leakage of radioactive waste and the subsequent pollution of food chains for virtually infinity. I will walk people through this highly complex issue so that they have a deeper understanding of the genetic and carcinogenic dangers of the nuclear age.

CRISIS WITHOUT END and NUCLEAR POWER IS NOT THE ANSWER
will be available for sale and signing after the talk.
